

A man with dark, curly hair and a beard, wearing a blue polo shirt, looking upwards and to the right. The background is a bright, slightly cloudy sky. A large blue triangle is overlaid on the bottom left of the image, containing text and a green geometric pattern.

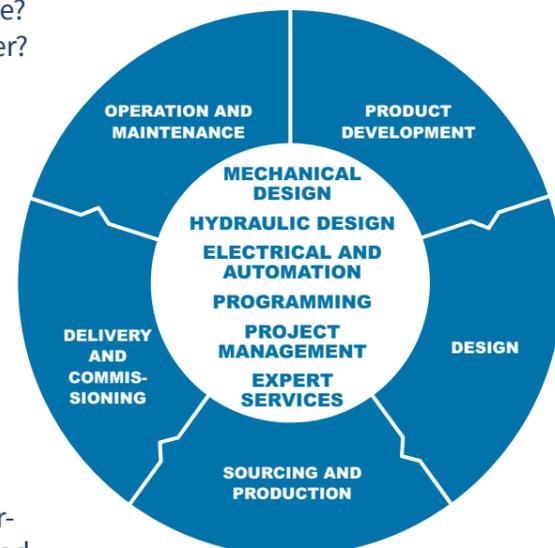

# Home of Engineering & Expertise

Comatec is the leading design, project management and expert services specialist for technology and engineering industries. Brain power means the ability to see the big picture, recognise needs and apply the best expertise available. In this, we are the strongest operator in the field.

## BRAIN POWER COMES FROM TOP EXPERTS

To find the best solution, you need to see the big picture. What is the production's operating environment like? Which processes drive product development further? In which conditions is the end product used?

In addition, all of this needs to be connected to the strategic needs of your business. This is our strong point. Seeing the big picture is also facilitated by our extensive technology expertise outside your own industry.

### WE HELP YOU IN ALL THE STAGES OF YOUR PRODUCT'S LIFE CYCLE

Mechanical design, hydraulic design, and electrical and automation design are our core competence areas, together with testing, technical calculation, product safety and life cycle services. Because of our strong design competence, it is most beneficial to bring in our experts already in the offer stage and during product development.

## VERSATILE ENGINEERING EXPERTISE AT YOUR DISPOSAL

Whether your challenge is product development, a complete project or a missing pair of hands, we have the expertise and experts to meet the needs of different industries.

### PROJECTS

Guarantee of the delivery from the early specification to final tests and production, whether you need customization of product, system or R&D project.

### SOLUTIONS

Perspective and best, verified solutions from our top professionals. Built on the base of solid know-how, expertise in the product and gains of newest technologies.

### EXPERTS

The flexibility secured by additional resources, new expertise and experience, for demanding situations in your business.

## THREE GOOD REASONS TO CHOOSE COMATEC AS A STRATEGIC PARTNER

### ADDED VALUE FOR YOUR PRODUCT

Our professionals help you develop new features, functions, inventions and even patents for your product.

### BETTER GROSS MARGIN

Efficient design and optimised processes improve the profitability of your projects through cost savings.

### FASTER TO THE MARKET

Agile operating methods and the latest knowledge in the field ensure that your product is competitive and is completed in time.

## THE BEST SERVICE IN YOUR INDUSTRY

Regardless of your industry, we are always close to you and serve you in an individual and flexible manner. Our reliability also makes the risk management of your company easier; you get access to the right experts at the right time.

Energy and boiler plants

Commercial vehicles

Material handling and conveyors

Marine industry

Cranes and load handling

Process industry

Rolling stock

Electromechanical systems and components

Industrial automation

Mobile machinery

## COMATEC'S QUARTER IS 25 YEARS

Comatec understood at an early stage that success requires the ability to forecast industry trends. Instead of a quarter of a year, the quarter that guides our operations is a quarter of a century.

According to this view, Comatec, which was established in 1986, is in its second quarter. At the end of the quarter in the 2030s, our goal is to be a global consulting and design company with thousands of employees.

In the industries in which we operate, projects often last long and require large investments, which is why it is important to choose the most reliable partners for their implementation. The most natural choice is Comatec, which relies on cost-effective long-term planning.

Comatec Group is an engineering company that provides and develops design, project management and expert services – a leader in its industries. We employ almost 600 professionals in over 20 locations in 4 countries. We are particularly known for our ability to carry out challenging assignments in the technology industry and the field of mechanical engineering. Our solutions are always based on tried and tested up-to-date technology.

DNV GL Business Assurance has granted Comatec Group the ISO 9001:2015 management system certificate. The certified operations include the Group's design, project management, site and expert services.
